

Test Case ID	Type	Purpose	Expected Result
TC-01	Class Test	Create StockItem with valid data	Object created with correct stockCode, quantity, price
TC-02	Class Test	addStock(10) on StockItem	Quantity increases by 10
TC-03	Class Test	addStock(0) on StockItem	Error message printed, quantity unchanged
TC-04	Class Test	sellStock(2) when enough stock	Quantity reduced, returns true
TC-05	Class Test	sellStock(200) when not enough stock	Returns false, quantity unchanged
TC-06	Class Test	setPrice(100.99) on StockItem	Price updated correctly
TC-07	Class Test	Create NavSys and call toString()	Shows "Navigation system" and "GeoVision Sat Nav"
TC-08	GUI Test	Create item via GUI (any type)	Success message + item appears in output
TC-09	GUI Test	Add stock via GUI	Quantity increases and updated details shown
TC-10	GUI Test	Sell stock via GUI	Quantity decreases and success/fail message shown
TC-11	GUI Test	Change price via GUI	New price shown in details
TC-12	GUI Test	List All Stock via GUI	All created items displayed with correct toString()
